

## 5 REASONS YOU NEED WORDPRESS MAINTENANCE

by duffweb

01

### BACKUPS

Without routine backups, you stand to lose a LOT of your hard work if your site ever breaks for any reason. And it happens.

02

### SECURITY

Developers update themes and plugins when there are new security threats. You need them as quickly as they are made.

03

### COMPATIBILITY

An outdated Wordpress version or theme or plugin or any combination of these can break your site. We keep it all working.

04

### REPORTS

We monitor and email you on all traffic, security threats, 404s, exploit attempts, visitor locations. Knowledge is power.

05

### YOU NEED THIS

Statistically, most WordPress users don't do their own maintenance actions. It's a lot of work. And it's technical. But it's vital.

LET US HANDLE YOUR MAINTENANCE  
SO YOU CAN FOCUS ON MORE FUN THINGS.
